Experience

Self employed / Freelance Web & Software Developer

Jan 2016 - Present

- Freelance web project management & software development
- Working part time on my own startup projects

Project & Product Manager / Codethink Ltd. (Manchester, UK)

Jan 2014 - Jan 2016

Projects managed included:

- Android emulator (for Win & OSX) - *Xamarin*
 - 12 month project, from initiation through maintenance
 - Delivered to hard release deadline
- Improving embedded Linux IVI system - *Jaguar Land Rover*
 - Led a team of 10 senior engineers, working at the client site on a very time sensitive and high pressure project, to solve major issues of reliability and speed.
- Open source community management & codebase improvements - *GENIVI Automotive Alliance*
 - Directed collaboration between internal and external contributors, with multiple stakeholders
